

INVITATION

Special Interest Group on Space Management

July 14 2017

Little Woodhouse Room, University House, University of Leeds

working for
universities,
owned by
universities

SUMS Consulting is delighted to invite you to a Special Interest Group for Space Managers. SUMS recognizes that space managers are often sole positions in a University and the intent of the Group is to:

- Share and define good practice in space management
- Build a support network for Space Managers.

Event Details

The themes for the day are:

- Understanding your University's Strategy and the implications for the Estate
- Responding to Change – a case study looking at sizing social learning spaces
- Performance management – what makes for a useful measure.

The meeting will be opened by our hosts, the University of Leeds, who will talk about the key drivers impacting their Estates capital programme. The University has recently engaged in some excellent new build and refurbishment of both library and lecture theatre spaces. They will talk through their plans with an optional tour for attendees.

Bristol will then talk about the sizing of a proposed new library and how this relates to the wider social learning space within a university. SUMS supported this work by undertaking a benchmarking study looking at new library spaces which included Leeds. This benchmarking exercise brought into question what are the best measures to compare and how efficiently can you run your Estate without sacrificing student experience.

This leads to the final session where a university with low space per student will talk about the difficulties associated with operating with little leeway and SUMS will instigate a discussion on what makes for a good space measure and what makes for a good margin for unforeseen circumstances.

It will be limited to twenty people to keep the session interactive.

EVENT DETAILS

The day will run 10:15 – 15:30 and further detail is available in the agenda

Please find venue info here - <https://www.meetinleeds.co.uk/location/#getting-to-the-university>

Lunch and refreshments will be provided on the day

NEXT STEPS

To reserve a place at this workshop please email Andrea Buttle, Principal Consultant at SUMS Consulting - a.buttle@reading.ac.uk and also let me know if you want to look at Leeds' library spaces.
